Materials Needed

Before starting, gather the following supplies:

Basic Supplies

- **Reed diffuser sticks:** Typically made of rattan or bamboo. About 8-12 sticks per diffuser.
- **Carrier oil:** Such as safflower oil, almond oil, or a neutral vegetable oil. These help carry the scent.
- **Essential oils or fragrance oils:** Pick your preferred scent(s).
- **Glass container or bottle:** A small vase, jar, or decorative bottle.
- **Funnel or pipette:** For easy pouring of oils.
- **Optional:** Decorative elements like pebbles, dried flowers, or colored sand.

Step-by-Step Guide to Making Your Reed Diffuser

Follow these simple steps to create your diffuser swiftly:

Step 1: Choose and Prepare Your Container

- Select a clean, dry glass container that complements your home decor.
- Ensure it has an opening wide enough for the reed sticks but narrow enough to prevent excess evaporation.
- Clean the container thoroughly to remove any residues or dust.

Step 2: Mix Your Fragrance Oil

- In a small bowl or directly in your container, combine the essential/fragrance oils with the carrier oil.
- A typical ratio is 1 part essential oil to 4 parts carrier oil, but you can adjust based on desired scent strength.
- For example, for a 100ml diffuser, use about 20-25 drops of essential oil per 80-75ml of carrier oil.
- Mix well to ensure the scent disperses evenly.

Step 3: Pour the Mixture into the Container

- Using a funnel or pipette, carefully pour the oil mixture into your chosen container.
- Leave some space at the top (about 1-2 inches) to allow the reeds to be inserted easily.

Step 4: Insert the Reed Sticks

- Place the reed sticks into the container, ensuring they are fully immersed in the oil.
- Fan out the sticks slightly for better scent dispersion.
- Allow the reeds to soak for a few minutes before flipping them.

Step 5: Flip and Arrange the Reeds

- Flip the reeds so the saturated ends are exposed to the air, releasing the fragrance.
- For ongoing diffusion, flip the reeds every few days or when the scent diminishes.

Optional Enhancements

- Add decorative pebbles or dried flowers around the opening for aesthetic appeal.
- Use colored sand or beads to match your decor.
- Experiment with different essential oil blends to create unique fragrances.

Tips for Maintaining Your DIY Reed Diffuser

- **Reed Maintenance:** Flip the reeds once a week to refresh the scent.
- **Oil Levels:** Refill the container as the oil evaporates, usually every 4-6 weeks.
- **Placement:** Keep the diffuser in a spot with good air circulation but away from direct sunlight or heat sources to prolong the scent's longevity.
- **Safety:** Keep out of reach of children and pets, especially if using potent essential oils.

- Reeds or Rattan Sticks: Absorb the oil and release the scent into the air.
- Fragrance Oil: A blend of essential oils or fragrance concentrates mixed with a carrier liquid.

Advantages of Reed Diffusers:

- No flames or electricity needed.
- Continuous scent release over weeks.
- Low maintenance ? just flip the reeds occasionally.
- Customizable scents and styles.

Materials Needed for Your DIY Reed Diffuser
